UNAUDITED INTERIM RESULTS DECEMBER 2022

Introduction and review

AfroCentric is a Level 1 majority black-owned JSE listed investment holding company, which owns and operates a diverse range of healthcare-related enterprises that provide specialised medical scheme administration and deliver a range of healthcare products and services to the public and private healthcare sectors. The principal objective of the Group is to ensure the delivery of efficient health management services and the distribution of quality products – all at a manageable and affordable cost for the benefit of our stakeholders. AfroCentric has successfully broadened its interests in the industry by continuing to pursue new opportunities to expand and rationalise its presence across the healthcare sector.

The Board presents commentary on operating profit for the 6 month period ended 31 December 2022. These results demonstrate in some businesses a sustainable performance while in others we experienced tough trading conditions. The normalisation of consumer patterns post Covid fueled by economic challenges has had an impact particularly in the Pharmaceutical cluster. As a result, we have seen a notable reduction in sales of preventative medication such as over-the-counter medicine and a general slowdown in chronic pharmaceutical sales.

The medical scheme administration business has sustained its continuous growth in terms of revenue and efficient servicing costs through digital enablement.

The Group's profitability has also been affected by the significant investment in a continuous IT system and infrastructure modernisation that is currently underway, as the Group gets ready for a more digitally focused mode of engagement. This creates an exciting opportunity as we allow ourselves to move at pace with consumer demands and further collaboration with Sanlam.

All these shifts, some of which are once-off in nature, have negatively impacted the Group's operating profit.

Cluster review

Services Cluster

The Services Cluster, substantially comprising of the medical scheme administration business, has mainly focused on creating certainty with regards to sustainability, innovation and improved member experience at care and service touchpoints. Significant traction has been gained with regard to the digital solutions and enablement capabilities that ensure optimal delivery of our product solutions with clear aim to provide easy benefit access, self-service and high touch service.

The Cluster has seen a 2.7% growth in revenue, while experiencing marginal growth in the medical aid scheme membership, membership losses in some of the schemes, as well as member buy down of options.

The investment on the IT system modernisation, business acquisition costs incurred in facilitation of the Sanlam transaction for unlocking future synergies and collaboration, the costs associated with prolonged loadshedding, as well as the additional legal costs incurred on the second arbitration of the NHA matter have resulted in the Cluster decreasing its operating profit by 7.0%.

Pharmaceutical Cluster (Healthcare Retail)

The Pharma Cluster had a challenging six months resulting in the decline in operating profit by 18.4%, mainly influenced by a general slowdown of the pharmaceutical products, lower adherence by patients to chronic medicine, the reduction in the Single Exit Price (SEP), as well as uncertain consumer spending patterns on preventative medicine. These challenges necessitated that the Cluster focus on strategies to increase revenue, reduce costs and improve the patient experience. This included projects to return non-adherent patients, savings on clinical cost by digitising several processes, as well as projects to optimise courier costs. The action plans have already yielded positive results, with a reduction in the overall cost per script, and an increase in the number of scripts.

Pharmacy Direct retained three of the provinces and attained two additional provinces in the outcome of the CCMDD tender, which will offset some of the losses experienced by the Pharma Cluster. This tender however comes with a reduced price per script which will marginally reduce the profit of the contract.

Corporate Solutions Cluster

The Corporate Solutions Cluster comprise various entities that support the overall, uniquely integrated, employee-focused health and wellness solutions offered to corporate and institutional clients. The Cluster's interactions and activities contribute to a reduction in primary healthcare costs, while increasing productivity and delivering tangible savings to employer groups.

Following the acquisition of the Sanlam Gap cover business in 2022, the Sanlam Gap business continues to deliver solid performance and has bolstered the Cluster's profitability. The Primary Health Insurance book has seen a 66% increase off a low base and the Gap cover book size has increased by 14%.

Group milestones

- Pharmacy Direct retained three provinces from the CCMDD tender, and attained two additional provinces (Gauteng and North West).
- Scriptpharm was successful in the award of the Polmed contract renewal for medicine management; the contract will be effective for four years.
- AfroCentric Health (RF) (Proprietary) Limited, the Group's main operating subsidiary, retained its Level 1 B-BBEE rating.
- AfroCentric Investment Corporation Limited attained a Level 1 B-BBEE rating, effective December 2022.

Financial performance

The Group's revenue for the six months grew by 1.2% from the prior year – the muted growth has been affected by the marginal membership growth, membership buy down of options, slowdown of the pharmaceutical sales, reduced adherence to chronic medicine by patients, reduction in SEP and reduction in sales of preventative medicine.

COMMENTARY continued

The Group's deliberate investment in digital solutions to enhance member experience, has resulted in costs being incurred as part of the investment in a continuous IT system and infrastructure modernisation that is currently underway.

The Group's profitability has also been negatively impacted by the business acquisition costs incurred in facilitation of the Sanlam transaction for unlocking future synergies and collaboration, and the costs associated with prolonged loadshedding, as well as the additional legal costs incurred on the second arbitration of the NHA matter.

Pursuant to these additional costs incurred, the Group's profit before tax decreased by 17.2% amounting to R270.9 million (2021: R327.3 million). The Group's profit after tax (PAT) decreased by 16.9% amounting to R194.2 million (2021: R233.6 million).

Despite the negative results to the previous period, the Group will continue with the investment in digitisation to explore better and more efficient ways in servicing and engaging our customers and members.

The Group's working capital has been adversely affected by the increase in the trade receivables. This is mainly attributed to the significant outstanding debtors balance from the National Department of Health in respect of the CCMDD contract.

Growth initiatives

During the period under review, AfroCentric Health acquired the remaining 49% shares in AfroCentric Distribution Services (ADS) effective 1 July 2022. ADS performs a critical role through its marketing and support services for medical schemes.

Outlook

The Group's core business remains sound with good diversification in the private and public medical scheme membership. The focus for the remainder of 2023 will be to optimise its spend on IT which will then enable the operations to become more efficient in its service model.

The Group's focus will remain on yielding synergies and the integration of various businesses and products, as well as enhancing the elements of the Group's businesses to leverage the full benefits of being the most diversified healthcare group in Southern Africa.

The transaction to acquire the controlling stake in AfroCentric by Sanlam is progressing well, following the approval of the transaction by the shareholders as well as the attainment of the minimum shares by Sanlam. The last steps to see the transaction to completion are currently underway.

Dividends

The Board has decided to follow a prudent approach to short term cash flow funding by postponing the interim dividend due to the significant increase in the trade receivables. A final full year dividend will be considered at year end in accordance with the Board's assessment of the Group's solvency and liquidity at that point in time.
