Introduction and review

AfroCentric "ACT" is a Level 1 majority blackowned JSF listed investment holding company. which owns and operates a diverse range of healthcare-related enterprises that provide specialised medical scheme administration and deliver a range of healthcare products and services to the public and private healthcare sectors. The principal objective of the Group, is to ensure the delivery of efficient health management services and the distribution of quality products - all at a manageable and affordable cost for the benefit of our stakeholders. AfroCentric has successfully broadened its interests in the industry by continuing to pursue new opportunities to expand and rationalise its presence across the healthcare sector

The Board presents commentary on AfroCentric's operating performance for the twelve months ended 30 June 2024. These results demonstrate, in some businesses a sustainable performance while in others we experienced tough trading conditions. The market factors in the pharmaceutical sector are geared towards more competition resulting in the Pharmaceutical Cluster experiencing margin erosion as well as members opting to buy cheaper generic medicine that do not impact their medical scheme out of pocket expenses. With this in mind, the Board has decided to take a prudent approach towards its investments in the Pharmaceutical Cluster by impairing some of the historical investment values.

The traditional medical scheme administration business has sustained its continuous growth in terms of revenue and efficient servicing costs, although the activity levels have increased significantly as members return to normalised levels of care. The requirement by our client schemes to make medical aid more affordable is also driving higher servicing costs in the clinical space in order to manage medical claims patterns.

The Group's profitability has also been affected by the investment in IT system modernisation and infrastructure refresh that is currently underway, as the Group gets ready for a more digitally focused mode of engagement. This creates an exciting opportunity as we remove all legacy systems and allow ourselves to move at pace with consumer demands and further collaboration with Sanlam.

All these shifts, some of which are once-off in nature, have impacted the Group's operating profit with lower than expected growth.

Cluster review Services Cluster

The Services Cluster, substantially comprising the medical scheme administration business, has mainly focused on creating certainty with regards to sustainability, innovation and improved member experience at care and service touchpoints. Significant traction has been gained with regards to the digital solutions and enablement capabilities that ensure optimal delivery of our product solutions.

The Cluster has seen a 6.0% growth in revenue linked to net growth in membership in most of the big open and closed schemes under management. This growth has mostly been recorded in the latter part of the financial year as members have selected their medical scheme options for the 2024 calendar year.

The increased costs in clinical servicing of medical claims, investment in new product development capabilities as well as the IT modernisation has however increased in line with our revenue growth resulting in a marginal operating profit growth for the Services Cluster.

Pharmaceutical Cluster (Healthcare Retail)

The Pharma Cluster operating profit grew by 7.3%, mainly influenced by the low base of operating profit in 2023 due to the closure of the hospital surgical consumables business in the prior year. The growth in operating profit was however diluted by Pharmaceutical sales, which were negatively impacted by a general slowdown in

COMMENTARY continued

over-the-counter/front-shop sales and specific pharmaceutical products, lower adherence by patients to chronic medicine, a reduction in SEP (regulated medicine pricing), as well as uncertain consumer spending patterns on preventative medicine.

The Activo Group revenue increased by 6.0% but operating profit declined significantly, which necessitated an assessment of the future earnings stream of this subsidiary compared to the expectations of when these subsidiary group of companies were acquired. Based on this assessment an impairment of R130 million has been recorded on the combined cash investment value of Activo and Forrester of approximately R868 million.

The Pharmacy Direct business has also seen low growth of 1.8% in operating profit, which required various interventions during the year in order to improve the delivery costs of both the private sector and state contracts being serviced. This included projects to return non-adherent patients, savings on clinical cost by digitising several activities, as well as projects to optimise courier costs. The action plans have already yielded positive results, with a reduction in the overall costs per scripts, and an increase in the number of scripts.

Based on the low growth achieved in 2024 and increasing competition in the pharmacy delivery market, an impairment of R100 million pertaining to Pharmacy Direct and Curasana has been recognised.

Corporate Solutions Cluster

The Corporate Solutions Cluster comprises various entities that support the overall, uniquely integrated, employee-focused health and wellness solutions offered to corporate and institutional clients. The Cluster's interactions and activities contribute to a reduction in primary healthcare costs, while increasing productivity and delivering tangible savings to employer groups.

Following the acquisition of the Sanlam Gap cover business in 2022, the Sanlam Gap cover business continues to deliver solid performance and has bolstered the Cluster's profitability. The Primary Health Insurance book has seen a 25.1% increase off a low base and the Gap cover book size has increased by 27.9%.

Financial performance

The Group's revenue for the 12 months marginally grew from the prior year. This is attributed to the 2023 revenue of the discontinued surgical business that is now excluded, as well as lower risk income being generated in the pharma cluster after the benefits of prior Covid cycles still prevalent in the 2022 calendar year.

The Group's deliberate investment in clinical capabilities, digital solutions to enhance member experience, has resulted in costs being incurred to ensure best claims management capabilities as well as IT system modernisation and infrastructure refresh.

Pursuant to these additional costs incurred and impairments recognised (R230 million), the Group's profit before tax decreased by 51.6% amounting to R207.0 million (2023: R427.4 million). The Group's profit after tax (PAT) decreased by 74.9% amounting to R74.3 million (2023: R295.5 million).

The Group has also transitioned fully on its share capital structure further to the conclusion of the Sanlam subscription for shares in May 2023 which has resulted in the weighted average shares increasing by 38.9% compared to 2023.

The Headline Earnings have increased by 54.1% to R334.8 million (2023: R217.3 million). Headline Earnings per Share increased by 11.0% to 40.3 cents (2023: 36.34 cents).

Despite the negative impact of the impairments in investments in the Pharma Cluster, the Group will continue with the investment in data capabilities to explore better and more efficient ways in servicing and engaging our customers/members.

Capital management and cashflow generation have been a focal point for the management team over the past few years and 2024 has yielded positive results in the cash and cash equivalents balances reaching R330.3 million (2023: R85.7 million) whilst borrowings remained stable at R628.4 million (2023: R648.0 million). The cashflow generation has been exceptional in 2024 considering the operational cash used to fund acquisitions (RI31 million) without the use of any additional borrowing costs.

Growth initiatives

During the period under review, AfroCentric Health acquired the remaining 49% of shares in Essential Group effective 22 February 2024. The Essential Group is the licence holder of the primary insurance business which has seen a 24% growth in policies in the past year. The Group's expectation is that these low-income products will attract greater demand in future as medical scheme affordability decreases in future.

Outlook

The Group's core business remains sound with good diversification in the private and public medical scheme membership. The focus for the remainder of 2024 will be to optimise its spend on IT and resources which will then enable the operations to become more efficient in its service model.

Capital Management has been prudent with good cash generation during 2024 and our total borrowings are now only 52% of the facilities available. This access to funding positions the Group well for future investments in enhancing its product offering and appetite for exploring risktaking products in the medical scheme services.

The Group's focus will remain on utilising synergies and integration of various businesses and products, as well as enhancing the elements of the Group's businesses to leverage the full benefits of being the most diversified healthcare group in Southern Africa.

The building blocks for an aligned partnership with Sanlam has been set in motion with improved sales capabilities and product enhancements for both medical scheme and insurance members which will be communicated later in 2024.

Dividends

The Group declared an interim dividend for the interim period ended 31 December 2023 and communicated its intention of changing its year end to align with Sanlam Limited's year end of 31 December 2024. With this in mind, a new dividend policy has been set where dividends will be declared annually based on audited results and shareholders are therefore reminded that the next dividend payment will be in May 2025, based on the 2024 calendar year performance.

Directors

The following changes were made to the Board during the year under review:

- Mr A Banderker resigned as the AfroCentric Group CEO and the Executive Director effective 1 November 2023.
- Mr GN Van Wyk was appointed as the AfroCentric Group CEO and Executive Director effective 1 November 2023.
- Mr WH Britz resigned as a Non-executive Director effective 1 February 2024.

Basis of preparation

Although these summarised annual results were themselves not audited, they are extracted from the consolidated and separate annual financial statements which were audited by KPMG Inc. who issued an unmodified audit opinion on the financial statements.

The summary consolidated and separate annual financial statements for the year ended 30 June 2024 have been prepared in accordance with the requirements of the Companies Act of South Africa, Act 71 of 2008 (Companies Act) applicable to summary financial statements, the framework concepts and the measurement and recognition requirements of International Financial Reporting Standards as issued by the International Accounting Standards Board (IFRS® Accounting Standards), the SAICA Financial Reporting Guides as issued by the Accounting Practices Committee and Financial Pronouncements as issued by the Financial Reporting Standards Council, and to also, as a minimum, contain the information required by IAS 34: Interim Financial Reporting.

The accounting policies applied in the preparation of the consolidated and separate annual financial statements from which the summary financial statements were derived are in terms of IFRS Standards and are consistent with those accounting policies applied in the preparation of the previous consolidated annual financial statements, except for new policies for IFRS 17 and those policies that were aligned to Sanlam's policies.

The consolidated and separate annual financial statements together with the audit opinion thereon are available on our website (<u>http://www.afrocentric.za.com/invreporting.php</u>), or at our offices upon request. The Board of directors (the Board) takes full responsibility for the preparation of this report.

These consolidated and separate annual financial statements have been prepared under the supervision of Hannes Boonzaaier CA (SA), Group Chief Financial Officer.

NOTE 5: RESTATEMENTS OF JUNE 2023 AND JUNE 2022 RESULTS

During the current year, there were restatements due to the adoption of IFRS 17 and prior period errors that were identified. Refer to Note 5.1 for IFRS 17 restatement and Note 5.4 for prior period error.

5.1 Impact on consolidated statement of profit or loss and other comprehensive income on transition to IFRS 17

During the current year, AfroCentric adopted IFRS 17 on the two cell captives (Medgap cover and Sanlam gap cover) that are managed by Guardrisk Limited and Centriq Life Insurance Company Limited, respectively. The impact of the transition to IFRS 17 has been disclosed by restating each of the financial statement line items for the prior periods as below.

5.4 Impact on consolidated statement of profit or loss and other comprehensive income on correction of prior period error

During the 2023 financial period, Medscheme Holdings incorrectly recognised revenue from contracts with customers and other expenses. The effect of the error can be seen on revenue from contracts with customers and other expenses. This restatement did not have an impact on the Statement of Financial Position and on the Statement of Cash Flows.

* Refer to Note 5 for details on the restatements.

** During the year, partial impairment of goodwill to the value of R230 million was recognised on some of the pharmaceutical assets (Activo Health, Forrester Pharma, Pharmacy Direct, and Curasana Wholesaler) was recognised. Refer to Note 1).

The goodwill impairment was necessitated by adverse price adjustments in some of the main product lines of the pharmaceutical cluster that have had a negative impact on profitability in the current year and is expected to continue into the medium term, synergies and expected growth in new pharmaceutical product lines that is lagging on the original acquisition assessments of these assets, as well as the anticipated reduction in profitability pursuant to the lower margins in both the private sector delivery market as well as the chronic medication delivery contract with the public sector.

These impairments are recognised at Group and not at segmental level.
